

Meet Cambridge Event Insurance - Key Considerations

When planning your event, whether it is a Conference, a Product Launch or a Dinner, it is important to ensure that appropriate Event Insurance is in place in order to protect your legal liability, your costs and earnings from the event and your reputation. Henderson Insurance Brokers Ltd are able to provide such cover and below we highlight some of the key insurance issues to consider for the event.

Public Liability Insurance

Public Liability Insurance protects you as event organisers against legal claims brought against you arising from accidental damage to third party property or bodily injury sustained at your event due to negligence of you or your employees.

Employers Liability Insurance

Employers Liability Insurance is a legal requirement if you are hiring staff for your event. It protects you as employers against legal claims brought against you by your full time or temporary staff (e.g. for Catering, Security etc) arising from injury sustained by them whilst working and due to your alleged negligence.

Event Cancellation Insurance

Even the most well organised events can be adversely affected by the unexpected. Planning for this can mean the difference between you making a profit or suffering a loss. What would happen if the event had to be cancelled due to adverse weather conditions or if there was a problem at the venue? What if industrial action affected public transportation on the day of the event? Is the event dependant upon the attendance of a key speaker? If so, what if they couldn't attend due to unexpected illness?

Any resultant cancellation or substantial reduction in attendance could not only affect your income from the event and incur additional costs to you, but also damage your reputation over the longer term. Event Cancellation insurance can provide protection against such eventualities.

Equipment Insurance

Insurance for equipment can be arranged. This covers your own property or property that you hire in for the event (and which is your responsibility to insure) and protects against perils such as theft, water damage, fire, malicious damage etc...
